

## SPOHR TELLS STORY OF HIGH FINANCE

Auditor Of La Salle Street  
Bank Testifies in  
Munday Trial

## TELLS ABOUT TRANSFER

Asserts Overdraft Privileges  
Forced Great Part of Worth-  
less Paper on the Bank

## WILL RESUME STAND TODAY

MORRIS, Ill., Oct. 13.—Frank M. Spohr, cashier and later auditor of the defunct LaSalle Street Trust & Savings Bank of Chicago, told a remarkable story today of high finance in the conduct of the institution.

**Tells About Transfer of Bank.**  
He was a witness in the trial of Charles B. Munday, vice-president of the institution whose case for alleged conspiracy in wrecking the bank was brought here on a change of venue from Cook county. Spohr was expected to continue his testimony for two days longer. The former auditor today told about the transfer of the bank from a national to a state institution. In this transaction he said that with assets of \$62,000 he himself had given an unsecured note for \$125,000 in common with nine others to create the capital stock of \$1,250,000 on which the state bank was organized.

These notes, he said, were placed in the bank to the credit of those who signed them and a check was then drawn against the LaSalle Street Bank for the amount, which was then deposited in the Central Trust Co. bank of which Charles Dawes, former comptroller of the currency of the United States, is president. The witness said the cash was paid on the note and the note came back to the LaSalle institution on the same day. Documentary evidence was introduced at this point in the testimony of Spohr to show that all of the assets and liabilities of the National bank had been accepted by the board of directors of the state bank. A federal bank examiner had disapproved of much of the paper taken over from the national to the state bank. It was alleged, in this presentation.

**Tells of Overdraft Privileges.**  
Mr. Spohr told how a great part of the alleged worthless and questionable paper held by the bank when the disaster came to it, had been forced upon the institution by the use of overdraft privileges enjoyed by William Lorimer, president of the bank and a former United States senator, by Charles B. Munday, the vice-president and by members of their families and those connected with the business firms with which Lorimer and Munday were associated.

The witness said there was kept in the vaults a large amount of southern traction company bonds which he asserted were of questionable value at all times, which was drawn on to balance the Lorimer and the Lorimer firms' overdrafts when no other means were available. In all the LaSalle Street Bank bought \$320,000 of these securities, he said. As many as \$1,030,000 were placed in the bank vaults, he asserted and Munday adjusted similar overdrafts against him by taking the notes of some of his firms.

**Paid Interest from Private Accounts.**  
On many of the Lorimer and Gallagher Construction company bonds the witness said, the only interest ever paid came from the Lorimer and Gallagher private accounts. Coupons having been detached until after the receiver had been appointed for the bank. Of all the Munday, Lorimer and Huttig obligations to the bank under its existence as a national institution, only a portion of the Huttig paper had been taken up three years later, when the failure of the state bank came.

H. W. Huttig was a director of the bank. Spohr was questioned at length on what he knew about the organization of the three subsidiaries of the bank. It is alleged by the prosecution that at one time the LaSalle Street bank obtained \$250,000 cash from the Corn Exchange bank of Chicago, which was taken from the Corn Exchange Bank to the LaSalle Street bank under guard of Corn Exchange bank employees and a policeman, each of whom kept it constantly in sight while it remained in the LaSalle Street bank. During the hours it remained there, according to the prosecution it was counted three times by John K. Seagrave, state bank examiner.

Three counts were for the purpose, it is alleged, of certifying the necessary amount for each of the three subsidiary banks of the LaSalle Street concern. Thereafter the Corn Exchange employees are alleged to have carried the money back to the bank of origin.

**Saw Money in Teller's Cage.**  
Spohr testified to having seen this money in the paying teller's cage of the LaSalle Street bank under the surveillance of the Corn Exchange employees and to have seen the pay-

## CARRANZA CONTROLS NEARLY ALL OF MEXICO

MESSAGES TO WASHINGTON AGENCY  
STATE CONDITIONS ARE IMPROVING

Santiago Orozco and Enrique Villa, Zapata Generals, Are Killed in a Fight at Toluca—Carranza Forces Take Guayamas.

Washington, Oct. 13.—More than ninety per cent. of all territory in Mexico is controlled now by the Carranza government, according to advices from Mexico City today to Carranza's Washington agency. The message described conditions in the republic as steadily improving and said that General Carranza, who was at Tampico, would visit Merida, capital of Yucatan, and probably other important cities including border points before making his formal entry into the capital.

"Minister Ancuna reported," said a statement by the agency summarizing dispatches from the foreign office, "that passenger traffic before Mexico City and Guadalajara was opened Monday. Also he reported that sanitary conditions in Mexico City were in perfect state."

"Yesterday there were six executions. In each instance the culprit condemned to death had been convicted of counterfeiting. The government has experienced serious embarrassment by reason of the activities of counterfeiters. The activities of the military forces endeavoring to suppress outrages by the Zapatistas resulted on Monday in the killing of Santiago Orozco and Enrique Villa, Zapata generals, in a fight at Toluca. This fight took place while the constitutionalist troops were endeavoring to effect the arrest of Lázaro Chasero, last leader of the convention party and self-styled provisional president of the republic."

"In the engagement a number of non-combatants and soldiers were also killed."

**Carranza Force Takes Guayamas.**  
Nogales, Ariz., Oct. 13.—Villa army forces here stated today that Guayamas, Sonora, the only port on the west coast of Mexico under Villa control, had fallen.

Carlos Randall, successor of Jose Maria Maytorena as Villa governor of Sonora, said the Villa garrison at Guayamas, under General Sosa, evacuated the town last night. A Carranza force of a thousand men was landed from the gunboat Guerrero and transported a few miles south of the city last night and attacked the town, he said.

## BEGIN TRIAL OF DIRECTORS AND FORMER DIRECTORS OF NEW HAVEN

NEW YORK, Oct. 13.—The trial of the directors and former directors of the New York, New Haven and Hartford railroad which will test the ability of the government to obtain the conviction of the directors of an alleged monopolistic corporation under the so-called criminal clause of the Sherman anti-trust law, was begun in the federal court here today. Three tentative jurors were in the box when the first day's proceeding came to a close. The defendants were William Rockefeller; Charles F. Brooks; D. Newton Barney; Robert W. Taft; James S. Hemingway; Lewis Cass Ledyard; Charles M. Pratt; A. Heaton Robertson; Frederick F. Brewster; Henry K. McHarg and Edward D. Drebny.

## DECLARES ARBITRATION IS OUT OF QUESTION IN CHICAGO STRIKE

Heads of Wholesale Clothiers' and  
Wholesale Tailors' Associations  
Take the Same View.

Chicago, Oct. 13.—Jacob B. Abl, president of the wholesale clothiers' association today declared that arbitration in the strike of garment workers was out of the question.

William Cahn, president of the Wholesale Tailors' association took the same view. Tomorrow a committee of employers will meet the city council committee and present their side of the case. Increases in wages and recognition of the union comprise the strikers' demands. Strikers and their sympathizers figured in three demonstrations today, in which there were several arrests. A crowd surrounded an automobile truck bearing what they said were non-union goods, ordered the driver to get off and threw the contents of the truck into the river.

Appeals were sent out today by the striking clothing workers to all clergymen in the city asking them to preach on the subject of arbitration at one of the services next Sunday. They were asked to advocate that measure in the interests of peace in all labor controversies.

**DENVER DOWNS MONTANA.**  
Denver, Oct. 13.—The Denver University football team defeated the Montana Agriculture College eleven here today 27 to 3.

ing teller in the act of counting the money, but he said he was not a witness to the actual counting on which the several certifications for the three subsidiary banks were made. Mr. Spohr also quoted many instances of questionable banking but could not recall instances of Munday's telling him why the particular directions he had received were given.

## TO ASK FOR LARGE SUM FOR DEFENSE

President and Advisers  
Estimate Amount at  
\$400,000,000

## FOR STRONGER PROGRAM

Wilson is Giving Preliminary  
Consideration to the National  
Defense Budget

## MAY PROPOSE BOND ISSUE

WASHINGTON, Oct. 14.—Four hundred million dollars for National defense—an increase of approximately \$140,000,000 over last year—constitutes the amount which President Wilson and his advisers at present estimate should be appropriated by the next congress for the army and navy.

**Considers Defense Budget.**  
At the date—Friday—for completion of the annual estimates draws near, the president is giving preliminary consideration to the national defense budget out of which it is hoped to lay down a stronger naval program than the United States ever has authorized in its history and similarly a larger provision for the military establishment than has been customary in time of peace.

The president has had before him for several weeks the outlines of military policy of a continuing character framed by Secretary Garrison and more than a year's study with officers of the general staff. With it the president is in hearty accord, regarding it as a conservative, well-balanced program.

While the details have not been revealed, a substantial increase in the regular army probably from 87,000 to at least 120,000 men and the creation of a reserve of perhaps 400,000 men through short term enlistment service of citizens interested in military training, are said to be parts of the plan.

**Have Not Fixed Exact Amount.**  
As yet the exact appropriation to be definitely recommended for the army and the navy respectively has not been fixed. Indications are that the army's budget of \$10,000,000 last year will be increased by at least \$60,000,000 while Secretary Daniels is figuring on obtaining a \$100,000,000 increase over the navy appropriation of \$148,000,000 last year. When the president and the secretaries of war and navy confer next week, it is understood an effort will be made to bring the total sum within the \$400,000,000 at present the combined total which will submit to the president. It is said, would make about \$450,000,000. If the needs of the two services can be cut to \$400,000,000, the total increase over last year would be about \$140,000,000.

The general view in administration quarters now is that a bond issue will be proposed as a means of meeting the added expense. The president's determination to urge upon congress in his next message a defense program to cost about \$400,000,000 has been emphasized in high official quarters in the last few days following Mr. Wilson's recent speech saying the American people should be adequately prepared not for war but for defense.

Much interest is manifested in the conferences the president intends having with members of congress, at which it is believed the procedure for the army and navy bills will be discussed.

**Be Made Administration Measures.**  
Both will be made administration measures and they probably will be given right of way over all legislation in the hope that several months' item will be saved in construction work for the navy and strengthening of the army.

Secretary Daniels already has had an opportunity to get the president's ideas on naval appropriations. Mr. Daniels said today that both the president and Chairman Padgett of the house naval affairs committee seemed to approve of the idea of a five year naval building program. Detailed estimates of the amount to be expended each year have not been determined.

**CHARGE DISCRIMINATION.**  
Washington, Oct. 13.—The Iowa state railway commissioners complained today that the Baltimore & Ohio and other railroads charged lower freight rates between cities on the lower Mississippi and points in eastern territory than from Iowa cities on the upper Mississippi and the same destinations, discriminating against the upper Mississippi cities.

## VIVIANI RECEIVES VOTE OF CONFIDENCE

Paris, Oct. 13.—The government of which Rene Viviani is the head received a vote of confidence in the chamber of deputies tonight, 372 to 9 after an hour's war policy, particularly relating to the Balkans was severely criticised by leaders representing the important committees.

## TELEGRAPHIC BRIEFS

SPRINGFIELD, Ill., Oct. 13.—Company C, Fifth Regiment, I. N. G., was mustered out of service here tonight by Colonel S. O. Tripp, chief of the quartermaster's department. Lack of interest and inefficiency were given as reasons for the action.

BURLINGTON, Iowa, Oct. 13.—John Lyons of Moline, Ill., and Emory Martin of New London, Iowa are held by the Burlington police as suspects in connection with the robbery of the Winnfield, Iowa, post-office last night of stamps amounting to three hundred dollars.

NEW YORK, Oct. 13.—The French cable company, of whose lines a temporary interruption of traffic was reported yesterday, announced today that the entire system of the company is now working normally.

EAST LIVERPOOL, O., Oct. 13.—Kiln firemen in the general ware potteries today presented a demand for an increase of fifty cents a day, bringing their pay to \$4, with the alternative that they would strike on Monday next.

DAVENPORT, Iowa, Oct. 13.—James E. Lindsay, one of the pioneer and best known lumbermen in Mississippi valley, died at his home early today, aged 89. He was senior member of the Lindsay and Phelps company, the Lindsay Lumber company, and numerous other corporations.

PARIS, Oct. 13.—Foreign Minister Del Casse resigned today. His resignation was accepted.

Premier Viviani announced the resignation of M. Del Casse and its acceptance, at a meeting of the cabinet council today, presided over by President Poincare.

POUGHKEEPSIE, N. Y., Oct. 13.—Inauguration of Henry Noble MacCracken as president of Vassar college, with elaborate ceremonies in which college notables of America and foreign countries took part, was the chief event on the last day's program of Vassar semi-centennial celebration today.

LONDON, Oct. 13.—(3:45 a. m.)—The parliamentary correspondent of the Daily News asserts that the conscriptionist members of the cabinet, headed by Winston Spencer Churchill and Earl Curzon, will make a renewed attempt at today's cabinet meeting to force the issue and obtain a definite ruling for or against conscription.

LIMA, Peru, Oct. 13.—The chamber of deputies today authorized the pardon of Raoul and Gaston Godoy, prominent bankers of Lima, who failed in 1913 with a loss estimated at \$500,000. The Godobys, who are brothers, left Lima immediately after their failure and were arrested at Guayaquil, Ecuador, while attempting to reach Panama.

LONDON, Oct. 13.—Captain G. S. Robertson has been killed in France. Captain Robertson came from Trent college, Oxford university, where he won prominence as an athlete. He was reserve member of the relay team of runners from Oxford which won its race at the relay games at the university of Pennsylvania last year.

OAKLAND, Cal., Oct. 13.—Reports of the standing committees on Statistics and on discharged prisoners and several important addresses occupied prominent places on the program of the meeting of American Prison association today.

## INDIANAPOLIS MAYOR IS FOUND NOT GUILTY OF CONSPIRACY

INDIANAPOLIS, Ind., Oct. 13.—Following the acquittal today of Mayor Joseph E. Bell who has been on trial here for more than five weeks on the charge of election conspiracy Prosecutor A. J. Rucker said he had no statement to make in regard to the disposition of the cases of more than 100 others indicted with the mayor. These include Thomas Taggart, Democratic National committeeman, and Samuel Perrott, chief of police.

"Just what every decent man in Marion county expected," was the statement of Mayor Bell after the verdict was read. "The verdict was what I expected at all time during the trial," was all Mr. Taggart said he cared to say this time.

## VEHICLE DEALERS MEET.

Chicago, Oct. 13.—The present condition of country roads insures the popularity of the horse and buggy over the motor car, in the opinion of H. J. Dodge of Abilene, Kans., secretary of the National Federation of Vehicle Dealers' association which is in convention here today.

## MINERS SELECT COMMITTEE

Clifton, Ariz., Oct. 12.—At the request of Governor Hunt the striking copper miners here tonight selected fifteen men not identified with any committee previously selected to confer with the mine managers.

## TO URGE CONFERENCE OF NEUTRAL NATIONS

Peace Congress Sends  
David Starr Jordan to  
See President

## JORDAN TO LEAVE TODAY

Congress Believes Belligerents  
Will Not Oppose Action  
By Neutrals to Bring Peace

## WANT WOMEN TO ATTEND

SAN FRANCISCO, Oct. 13.—The international peace conference adopted a resolution today directing David Starr Jordan, president of the congress and chancellor of Stanford university to proceed to Washington, D. C., at once and urge President Wilson to call a conference of neutral nations to be a permanent body, to bring about peace. He will leave tomorrow.

Another resolution adopted declared the peace congress looked with apprehension on the presence of advisory boards of the United States government of manufacturers of war munitions or of men interested in the sale of supplies to the belligerent nations.

The congress in a resolution stated that it believed the warring nations were not willing themselves to begin peace negotiations but would welcome, or at least not oppose, affirmative action by a neutral agency endeavoring to bring about peace, based on international justice.

Representatives of the International Labor and Women's peace movements will be asked to attend the proposed conference of neutral nations. Members of the peace congress said they believed a large labor and farmers' representation would tend to influence delegates to strive for a truce.

The congress in another resolution advocated the formation of a committee of representatives of all forces interested in the furtherance of international peace, including those from the labor bodies and women. This committee would be expected to establish a clearing house and further a campaign of education tending to strengthen the peace movement.

An appeal will be made to the national congress to adopt an immigration policy based on the just and equitable treatment of all races. The peace delegates want a policy that will grant citizenship regardless of race or nationality and to provide that all aliens should be under the protection of the government.

## OBSERVE ANNIVERSARY OF LINCOLN DOUGLAS DEBATE

Senator Lewis is Principal Speaker  
at Quincy Celebration.

Quincy, Ill., Oct. 13.—The feature of today's fall celebration in this city was the observance of the fifty seventh anniversary of the famous debate which took place in this city between Abraham Lincoln and Stephen A. Douglas.

United States Senator James Hamilton Lewis was the speaker of the day and said that while the question of slavery was uppermost in the minds of the people when Lincoln and Douglas met, the true issue of this time was the question of state rights. It was this question, he said, which was the real cause of the Civil War and has been the real cause of all the wars in history, including the present conflict in Europe. He also pointed out the danger of the United States becoming involved in war with Japan and her allies in Europe over the Philippine Islands.

Hon. A. O. Eberhardt, former governor of Minnesota, will be the principal speaker on tomorrow's program and will review the big civic parade which will be held tomorrow night to bring the celebration to a close.

## DENY SUFFRAGE ATTACK MOTION.

Springfield, Ill., Oct. 13.—The Supreme Court denied today the motion by Matthew Beringer and others of Chicago for leave to file a brief in the Macomb anti-suffrage case. The liquor interests of Chicago were said to be behind the move to attack woman's suffrage in Illinois.

## ACCEPT FITCH'S RESIGNATION.

Springfield, Ill., Oct. 13.—It was announced today at the office of the supreme court clerk that the resignation of Joseph H. Fitch, judge of the superior court in Chicago, now serving on branch "C" of the appellate court of the first district has been accepted. Superior Court Judge John M. O'Connor was appointed to fill the vacancy.

## REPAIRING PARSONAGE.

Some repairs and improvements are under way at the Yates property which is now the home of Rev. F. B. Madden and family. The work will probably be finished in the course of two weeks.

## GRAIN DEALERS CHOOSE BALTIMORE FOR MEETING

PRESIDENT METCALF IS RE-ELECTED  
HEAD OF THE ASSOCIATION

George Livingston and Laurel Devel  
Address Delegates—Chairmen of  
Committees Read Reports Before  
the Convention.

Peoria, Ill., Oct. 13.—Baltimore was chosen as the convention city for 1916, at the closing session of the nineteenth annual convention of the National Grain Dealers' association here tonight. At the afternoon session President Metcalf, of Illinois, Ill., was re-elected president of the national association. Other officers re-elected include John L. Messmore, first vice-president, St. Louis; E. C. Eckenberry, second vice-president, Camden, O., and Charles Quinn, secretary, Toledo, O.

The new board of twenty directors includes James L. King, Philadelphia; L. W. Forbell, New York; E. P. Peck, Omaha; H. E. Boney, Wilmington, N. C., who succeeded themselves, J. P. Donahue, Milwaukee; A. F. Owen, Minneapolis; J. H. Rahn, Kansas City; Joseph Wade, Memphis; W. W. Pollock, Mexico, Mo., new members. The holdover members are J. W. McCord, Columbus, O.; H. I. Baldwin, Decatur, Ill.; T. A. Morrison, Kokomo, Ind.; J. J. Stream, Chicago; Jno. D. Baker, Jacksonville, Fla.; A. H. Bennett, Topeka, Kans.; F. D. Milligan, Jefferson, Ia.; T. G. Moore, Fort Worth, Tex.; E. Wilkinson, Birmingham, Ala., and Charles D. Jones, Nashville, Tenn.

Addresses at the morning session were delivered by George Livingston, of Washington, D. C., of the office of markets and rural organization, and Laurel Devel, United States department of agriculture, on the Argentine republic, its grain grades, its exports and its agricultural possibilities.

Kenton B. Keilholtz, of Toledo, O., chairman of the crop reports committee, Bert Boyd, of Indianapolis, chairman of uniform grades committee and W. A. Cutler of Adrian, Mich., chairman of the hay and grain joint committee, also read reports before the convention.

## CHARGES DAVIS WITH TAMPERING WITH A STATE GRAND JURY

States Attorney Hoyne Asks That  
Writ of Attachment Be Issued For  
District Superintendent of Illinois  
Anti-Saloon League.

Chicago, Oct. 13.—Basing his action on a charge that attempts had been made to influence a state grand jury, State's Attorney Hoyne today asked that a writ of attachment to show why he should not be punished for criminal contempt of court be issued for Elmer J. Davis, district superintendent of the anti-saloon league of Illinois.

The writ was issued by Chief Justice Burke of the criminal court and the defendant was given until Oct. 13, to purge himself of the alleged contempt.

The charge was an outgrowth of various published statements relative to efforts which were said to have been made to induce the state grand jury to return indictments against Mayor Thompson for failure to enforce the state law compelling the closing of saloons on Sunday. Mayor Thompson recently ordered the law enforced.

Presenting the information asking for the writ the state's attorney said to the court:

"These proceedings not only involve Mr. Davis but others. As your honor may know, conditions which I will bring before the court exist not only in Cook county but also in other counties. I have knowledge that Mr. Davis tampered with the September grand jury. I not only have knowledge of his tampering with the grand jury but he admitted his guilt and boasted of it."

Mr. Hoyne said that besides Mr. Davis, John McDonald, a grand juror and E. B. McCoid, attorney for the Chicago Citizens' committee were involved.

## CHANGE NUMBER AND DATE OF INSTALLMENTS IN PAYING FOR LOAN

NEW YORK, Oct. 12.—A change in the number and date of installments in paying for the \$500,000,000 Anglo-French loan is contained in the prospectus issued tonight. Heretofore it had been assumed that purchasers could pay installments in three payments beginning Oct. 15th, and ending December 15th. It developed with the issuance of the prospectus, however, that this had been a tentative arrangement and that any had been substituted under which payments are to be made Oct. 29th, and December 3d, fifty percent at each time.

Purchasers of the bonds desiring to do so, however, may pay for them in full Oct. 29th, the prospectus states.

## ADD Make Details.

SPRINGFIELD, Ill., Oct. 13.—The Rose point place that will adorn the wedding gown of Miss Eileen Mary Dunne, eldest daughter of Governor Edward F. Dunne, who will wed William J. Corboy, of Chicago, Oct. 20, was worn by her mother when she married the present state executive.

## SERBS ARE MAKING STUBBORN DEFENSE

Although Steady, the Pro-  
gress of the Austro-Ger-  
mans is Very Slow

## RUSS HAVE HARD TASK

Bulgarian Ports Where Landings  
Might Be Made Have Been  
Strongly Fortified

## DISAPPOINTED WITH ITALY

LONDON, Oct. 13.—The Near East, with the Austro-German and Bulgarian invasions of Serbia; the Anglo-French landing at Saloniki; the promised active intervention of Russia and the diplomatic possibilities in Greece and Roumania, continues to be the center of interest throughout the belligerent countries.

**Serbian Make Stubborn Defense.**  
The Serbians, although greatly outnumbered by armies with superior equipment, are making a stubborn defense of their country and while the Austro-German progress is steady, it is very slow and probably will become slower still when the mountains, where the Serbians are strongly entrenched, are reached.

Of the Bulgarian campaign nothing new has been received since Nish reported the repulse of the invaders, while the movements of the Anglo-French and Russian forces have thus far been kept from the knowledge of the public.

## Russ Have No Easy Task.

The Russians have no easy task before them if they intend to land in Bulgaria. Varna and the other Bulgarian ports on the Black Sea where landings might be made have been strongly fortified under the direction of German officers and are protected by mine fields.

The Russians could sail down the Danube as that is an international waterway, but it is doubtful whether they have the necessary transport; while to come through Roumania would require the consent of the government of that country, which, although considered friendly to the entente powers, might not wish to risk the displeasure of Germany.

## Disappointed With Italy.

Some disappointment is expressed here at the decision of Italy not to participate. Italy has laid claim to great influence in the Balkans and is known to have aspirations in Asia Minor, which the junction of Germans and Turks, it is pointed out would virtually bring to an end.

With superfluous forces and excellent transport facilities the view is held in London that Italy is in a better position than any of the allies to lend a hand and the hope is expressed that she will do so.

In the meantime the allies are closely watching developments in the internal situation in Bulgaria, where many of the people are averse to fighting against the allies, particularly Russia. It is reported from Paris tonight that General Sarrail, former Bulgarian minister of war and former commander-in-chief of the Bulgarian army, has resigned also command in order to fight against Russia. It is thought the landing of Russians in Bulgaria might result in a change in the policy of that country, even thus late in the day.

## Trench Fighting in West.

There is little or no change on the western front, the fighting again being for the trenches, with fluctuating success. The allies maintain all their larger gains and are pressing the Germans in Flanders and Champagne.

In the east the Russians have won an important victory in Galicia routing three Austro-German divisions on the Stripa river. In the north they have pushed Field Marshal Von Hindenburg several miles farther west of Dvinsk and are again approaching the Dvinsk-Vilna railway.

The activity of the British submarines in the Baltic continues and Germany is now conveying her steamers to and from Sweden.

F. L. SHARPE APPOINTED

DEPUTY GRAND EXALTED RULER

Has Received Notice From Grand Exalted Ruler Nicholson—His Jurisdiction Will Be Western Illinois.

F. L. Sharpe has been appointed deputy grand exalted ruler of the Benevolent Order of Elks for western Illinois by Grand Exalted Ruler Nicholson, of Boston. The preferment came without solicitation by Mr. Sharpe and a great surprise to him. His duties will take him to the various lodges of his jurisdiction and the appointment is for one year.

The local organization has been backing Mr. Sharpe for the state presidency of the Elks which will be held at Danville next year. On account of the recent appointment he will decline to make the race. Those who are acquainted with Mr. Sharpe know the keen interest he has ever manifested in the order and his appointment comes as a just recognition of his popularity and ability.

SPENT PLEASANT TIME.

In a city not far away the plan of dividing those who attend a church prayer meeting into classes has been adopted, so that special lines of religious instruction and study may be developed. According to reports the total attendance at any Jacksonville prayer meeting would not make one good sized class. That's not the fault of the preachers. Seats are free.

The great war has brought no more notable case of patriotism than was recorded in the war of the rebellion. A soldier who fought bravely all through the war as Private Albert J. Cashier, died recently at the Watertown insane hospital. It was learned in the closing days of the war that Private Cashier was a woman who had concealed her sex that she might fight in the lines for her country.

The demand made by the packers that England pay for the \$15,000,000 worth of meat destined to the Netherlands and confiscated will be pushed to the utmost. Certainly England's action in this case seems at variance to law. Every citizen has an interest in this case for if the packers lose that \$15,000,000 they will surely eventually charge it to the consumer. It's the way of business.

Just a few weeks since the farmers were complaining and with reason that continued rains were causing great farm losses. Now rain is needed because the ground has dried so rapidly that it is very hard to plow. Farming conditions are never just right but locally most things on the farm come out all right in the end and the rain yesterday was a help.

The woman's civic federation of St. Louis has a children's welfare committee and the work is in charge of a matron who devotes her time to it. Recently she found a homeless, parentless boy in great need and the federation voted to adopt him for a few months. Think how well on this lad is with 501 mothers to care for him. That indeed is practical uplift work.

A correspondent of the New York Sun declares that the war of the rebellion furnishes an argument for preparedness. He says that if at the beginning of the war there had been one well trained army corps and a goodly reserve force that there would have been an end of secession in six months instead of four years. The same writer quotes the significant historical fact that it took McClelland a year to organize a real army after the battle of Bull Run. Those leaders who oppose a larger army and preach the doctrine that a call would speedily bring millions of arms are overlooking the truth that it would take months of training and organization to render such a body of troops potent.

Loan Suit Was Expected.

The suit brought by Mrs. Olga H. S. Walsh, of Chicago, against the New York Mutual Life Insurance Co. officials, Mr. Morgan and others for the purpose of stopping the half billion dollar loan to the allies, is not likely to seriously interfere with the loan plans. The extent of the bill filed and the various allegations made indicate that the suit is in reality brought by a national peace society and represents an organized effort to stop the sale of war munitions to the allies. As has been said over and over again the United States is following precedent and reason in selling war munitions and offers them to all nations who want them and have the money to pay. To stop the sale would be action so favorable to Germany that it would readily be construed as an unneutral act to the allies.

Germany does not declare that the United States is exceeding its rights in selling munitions and the campaign to stop the sale has been waged partially by German sympathizers and partly by those who really have the sincere but erroneous idea that the sales made wickedly prolong the war. The big interests which arranged the loan details expected a suit of the kind filed and were doubtless fully advised as to their legal rights before taking action.

The eyes of the state will be on the courts while the Illinois Equal Suffrage law is in jeopardy because of the suit brought from Macomb. In asking the supreme court to pass on this matter again the attorneys for the complainant in the suit allege that the court did not pass on the merits of the previous case. Friends of the suffrage law declare that this suit was brought at this time because the liquor interests are thoroughly aroused by the Sunday closing ordinance and the evidence of the increase of dry sentiment in Chicago.

The suffrage law was the biggest blow the saloon interests have ever received in Illinois. Except in rare instances in communities where the women have a right to vote the saloon has no chance for life. People may differ in their views as to the

desirability of women voting, the effect on them and on society, but when it comes to the right of women to vote there really isn't any argument.

In Galesburg the question of issuing \$75,000 bonds for water improvement and \$20,000 for light improvement is being agitated. The city's supply of water like that of so many other inland cities, is not adequate and it is proposed to sink more wells and to add to the equipment. In order to remove opposition which may come because of feeling against some of the city council it is proposed to have a committee of sixteen citizens supervise the expenditures if bonds are voted.

If a bond issue had been proposed and passed in Jacksonville several years ago for water and light development the city's floating debt would now be much less than it is and the general financial condition better. Naturally the interests which formerly profited from Galesburg's 65 saloons are opposed to the bond issue and say a return to saloons, 20 of them at \$2500 a year license would be a better business proposition and would pay a sum equal to the proposed bond issue in two years time. But the majority of the men and women of Galesburg probably do not think so.

Switch Plan Given Impetus.

The conference held yesterday at the Peacock Inn by the men representing the various interests that believe a proposed switch connected between the street railway and the C. & A. is advisable, gave emphasis to the often made statement that the need for any community growth is co-operative work. Most any problem can be threshed out satisfactorily if men representing the various interests get together and talk over details. Several of the speakers mentioned that the proposed switch might properly be considered as a matter to be referred to the utility commission, yet they did not hesitate to say that this reference should not be taken until all possible effort of the several interests reaching an agreement had been tried out.

Another important point which gained new force at the conference was mentioned by Mr. Kern when he said that local improvements, street cleaning and matters of that kind, are essential to the growth of a city and have a marked effect on the citizenship. If people are to move forward and upward it will be largely because the great majority are active in "cleaning things up."

The purpose of the proposed switch is to save the pavements of Jacksonville from unnecessary wear and tear. Incidentally the plan proposed may add a little to the revenue of the railway company and also may result in a saving to the state on their coal bill and other haulage account. When it is considered that practically everybody and every interest concerned by the project will be benefited, there seems all the more reason for expecting a speedy and satisfactory agreement about the minor details.

Mr. Kern had compiled a record showing approximately the number of cars supplies received in carload lots for Jacksonville state hospital each year. This list included potatoes, five to eight cars; coal, three hundred to three hundred and fifteen; flour, twelve to fifteen; sugar, three; hay and feed, five to ten. The cost of hauling coal is 30c per ton, which means an expenditure of from \$3,000 to \$4,000 a year. Other supplies are hauled by institution teams, but the men and teams could be used to advantage in other work. These figures represent only the institutional side of the proposition, and do not take into account at all the saving of the street pavements. The switch proposition has good sound argument in its favor and should become an accomplished fact.

MAY LIFT QUARANTINE.

Dr. I. K. Atherton, the federal veterinarian who was in Morgan county Tuesday and spent Wednesday in Pittsfield and vicinity, is looking over the situation with a view to lifting the quarantine. Morgan county is again in restricted area and farmers and stockmen will welcome the release of restrictions in the matter of livestock shipments. From Jacksonville shipments may be made for immediate slaughter only but the East St. Louis market is closed to stock from this county.

SUBSCRIPTION CONTEST.

Arrangements were made by the teachers of the high school for the Nautilus subscription contest which will begin in a few days. Following out the plan of last year a prize of \$5.00 in addition to a social will be given to the class securing the largest number of subscriptions. The class that secures the second largest number will be given \$3.00 but no social. The David Prince school will also participate in the contest.

SCHOOL NEARING COMPLETION.

The improvements at the Franklin school building are nearing completion and William McCullough, the contractor, will soon do his last work on the enlarged structure which will have six well-lighted, modern rooms and will be finished at a total cost of \$10,000.

ATTENTION VETERANS.

Attention is again called to the request that all members of Matt Starr post G. A. R. and all old soldiers attend the funeral of Comrade James W. Crabtree at the residence of E. E. Crabtree, 605 West State street at 9:45 this morning.

## FRANKLIN FIRM HAS MADE AN ASSIGNMENT

Rolston & Smith Voluntarily Quit Business for the Benefit of Creditors—Liabilities Listed at \$8000 With Assets About Equal.

The grocery and clothing firm of Rolston and Smith at Franklins closed its doors Wednesday voluntarily. Their assets are placed at \$8,000 and their liabilities are not much in excess of this amount. Carl E. Robinson was appointed assignee and the stock is being liquidated. It is understood that the stock will not be sold at auction, but will be purchased by some individual who will still continue the business.

J. O. Rolston formerly conducted a clothing store and suffered a loss from fire. John T. Smith was conducting a ten cent store until he formed a partnership with Mr. Rolston. They have been in business for seven months. The firm took the step as the result of a recent conference with their largest creditors. It is understood that Mr. Rolston will continue as a clerk with the parties who are to take over the stock. One of the creditors said last night that the firm had acted in the manner best calculated to save losses and that the assignment will probably mean but a slight loss.

We have on sale this week a number of smartly trimmed silk velvet hats at \$2.00. Arroll Millinery Parlors 859 Routt Street.

WOODSON.

Mrs. J. W. Coffman, Mrs. Joe De Freitas and baby, Mrs. Elsie Coffman and baby, all of Jacksonville, were guests of Edward Gallagher and family Thursday.

Mrs. Emery Hull and daughter Margaret and Mrs. Will Hull of Murrayville were Friday guests of Mrs. John Adams.

Mrs. Mary Dunlap of Jacksonville and Mrs. Ada Quintal of Bluffs visited their sister, Mrs. J. W. Henry and other relatives here part of last week.

Miss Clara McHorter returned home last week after having spent several weeks with friends at Rockport.

The Household Science club will hold their meeting at the Christian church Wednesday afternoon, Oct. 20th, at 2:30 o'clock. All ladies are invited to attend. Miss Katherine Olmsted of Jacksonville will be present and address the club on a special subject which will be interesting to all.

Mr. and Mrs. Maurice Thompson from near Prentice visited relatives here Sunday.

Wm. Cleg of Murrayville was a caller here Saturday.

Roy Denbo and father of Littlefield and Mr. Tucker of Decatur were here Tuesday in the interest of the Protective League Life Insurance company.

The Ladies Aid society of the Christian church will serve dinner at the country home of Mrs. Mattie Taylor on Thursday, Oct. 21. A cordial invitation is extended to everybody.

MUNICIPAL GARBAGE PLANT.

At the last meeting of the city council of Beardstown, Mayor Harris succeeded in inducing the city to support his plan to levy a mill tax, and to appropriate \$1,000 as the initial outlay in the establishment of a municipal garbage disposal system. The city plans to employ two teams of horses which will make weekly rounds collecting the refuse from alleys and backyards and dumping it at a suitable distance from the city. The city is also talking later on, of establishing an incineration plant. By this method Beardstown will now have a clean-up every day instead of their usual annual one.

FIRE AT LUKEMAN HOME.

Fire did considerable damage to one room at the residence of George T. Lukeman, 1316 West State street about 7:30 o'clock last night and for a time threatened the whole house. The fire originated in a bedroom where an electric iron came in contact with the bedding. When the fire was discovered the room was in flames and prompt work was necessary. W. T. Wilson used a fire extinguisher with quick effect and a bucket brigade accomplished the rest. The fire department arrived as promptly as the long run up grade made possible but their services were not necessary.

ILL LUCK PURSUES TWO PITTSFIELD TRAVELERS

Roy D. Plattner and Samuel Williams of Pittsfield left for Chicago Tuesday evening on the Wabash train which was held up by the wreck at Neeleys. Desiring to finish their journey, they obtained an automobile and set out for Chapin, arriving just two minutes late for the 11:20 o'clock northbound C. B. & Q. train. They secured another automobile at Chapin and came on to Jacksonville, arriving at the Alton station ten minutes after the Hummer had departed for Chicago. The men accepted the situation with excellent spirit, though their visit in Jacksonville Wednesday was an enforced one.

MARGUERITE CLARK in the famous romantic comedy

"GRETTA GREEN"

Marguerite Clark, the dainty and fascinating stage and screen favorite, is certain to add appreciably to her astounding popularity in the four-part pictorialization of the celebrated comedy romance, "Gretta Green," by Grace Livingston Furniss. This quaint and picturesque play possesses all the varying elements essential to the successful screen drama—love, sacrifice, humor, mystery and thrill—and is laid in the charming period of the early nineteenth century, when daring elopements to Gretna Green, a lovers' haven in the north of Scotland, added dash of excitement to many true love-matches, when hearts reigned over the marts of commerce, just before the prose of business usurped the poetry of romance.

### ILLINOIS CENTRAL STATEMENT SHOWS DECREASE IN REVENUES

Report States Falling Off in Revenues is Due to a Nation-Wide Depression in Business.

Chicago, Oct. 13.—The annual statement of the Illinois Central Railroad company issued today, showed that the operating revenues for the year ended on June 30, 1915, totaled \$61,700,372, a decrease from the previous year of \$4,173,327. The report said the falling off in revenues was due to a nation-wide depression in business. The decrease in revenues was largely offset by a reduction in operating expenses of \$3,205,180, the total expenditures being \$47,570,148. The report declared the decrease in operating expenses was brought about in part by the reduced volume of business and partly by increased operating efficiency.

After figuring in income other than that from operating trains and deducting taxes and other expenses, the net income for the year was \$6,859,162, a decrease from the preceding year of \$1,279,663.

The report showed that the railroad had completed double trackage from Chicago to Memphis and had expended more than \$6,000,000 for betterment and construction.

### TWO VICTIMS OF COLLAPSE OF KADOCK BUILDING DIE

DENISON, Iowa, Oct. 13.—Of the victims of the collapse yesterday of the Kadock building, Mr. Kadock and Mike Maloney, Sr. died today. Mrs. Smith, daughter of Mr. Maloney, is said to be dying and Mr. Lantzenheise, a traveling man, whose home is in Dubuque, is in a critical condition.

The Kadock building, a two story brick, collapsed after an adjoining building had been torn down.

### GEORGE W. PERKINS ARGUES FOR A NON-PARTISAN TARIFF COMMISSION

INDIANAPOLIS, Ind., Oct. 12.—Speaking before one hundred and fifty leading members of the progressive party in Indiana, George W. Perkins, of New York, chairman of the national executive committee of that party said here tonight that industrial chaos would result in this country after the European war is over through the flooding of the markets of the United States with European manufactured products. He asserted the only solution of the problem was in a non-partisan tariff commission such as was proposed by the progressive party in 1912.

KANSAS IRRIGATION CONGRESS Garden City, Kas., Oct. 13.—The Garden City methods of irrigation will form the keynote of the fourth annual Kansas Irrigation Congress, which opened here today. Garden City was the pioneer in irrigation in this section of the country. In 1880 ditches were constructed from the Arkansas river, but this method was abandoned during the following years of good rainfall. When irrigation again became necessary it was found that Colorado had most of the available supply of river water. In 1896 centrifugal pumps were installed near this city for the furnishing of irrigation water. Federal and state experts are joining in the discussion of irrigating the western Kansas district. H. B. Walker, state irrigation engineer is secretary of the congress.

BIG AUTO SUFFRAGE PARADE. Rochester, N. Y., Oct. 13.—Automobiles from all sections of the state are gathered here for the great suffrage parade which will be held this afternoon as the feature of the suffrage convention. The official machines are painted in suffrage colors, and the machines are decorated with flags, bunting and flowers. All of the eastern suffrage leaders will be in line, and several thousand cars will pass through the main streets.

BROTHER VS. BROTHER IN BIG FOOTBALL GAME. Ann Arbor, Mich., Oct. 13.—A peculiar coincidence will take place, when brother will be pitted against brother, in the Michigan-Marquette football game on Perry field this afternoon. Louis Reimann is the veteran left tackle on Yost's eleven, while his brother Edward is now playing his second year as right tackle for Marquette. To relieve the embarrassment of the brothers, Yost will probably switch his star lineman to the other side of center.

MAJORITY IS SMALL. Charleston, S. C., Oct. 13.—Tensities of the factional fight in the democratic municipal primaries yesterday, which caused Governor Manning to hold state troops under arms, was reflected today in the count of votes in the mayoralty race. Out of more than 6,000 votes cast, Major Tristram T. Hyde had an apparent majority of nineteen over Mayor John P. Grace. More than 100 votes have been contested and it will take an official count to determine who won.

NAME SIMMONS CAPTAIN. New York, Oct. 13.—Francis S. Simmons, left half back of the Columbia football team, was elected captain of the eleven tonight.

REVOLUTION BREAKS OUT IN GUATEMALA. New Orleans, Oct. 13.—Revolution has broken out in Guatemala and fighting is in progress in the states of San Marcos, Huehuetenango and Peten, according to advices received here by the Guatemalan junta of the "revolutionary committee."

BULGARIAN DIVISION IS ALMOST ANNIHILATED. Paris, Oct. 14.—Private advices are to the effect that a Bulgarian division was almost annihilated in a fierce battle near Kraguyevatz, Serbia, says a dispatch to the Havas Agency from Bucharest dated Tuesday and delayed in transmission.

### ANNOUNCE IMPROVEMENT IN STACKPOLE'S CONDITION

NEW YORK Oct. 13.—Late tonight physicians said there was an improvement in the condition of George F. Stackpole the River Head lawyer suffering from anthrax. His temperature was 102, his pulse stronger and his heart responding to treatment given to offset the effects of poison in his system.

In the belief that he is another anthrax victim, Martin Brodsky, a laborer, 5 years old, of River Head, was tonight sent to the Bellevue Hospital.

Anthrax Case at Benbow. Springfield, Ill., Oct. 13.—Dr. J. C. Helper of Benbow City for the past three days a victim of anthrax was said by his physician to be slightly improved tonight. Dr. J. T. Kessinger who is attending the stricken man is still treating with mercury and says he will not apply for the new government serum unless a change for the worse comes.

### ZEPPELIN AIRSHIPS DROP BOMBS ON LONDON; EIGHT ARE KILLED

Report States Thirty-Four are Injured—Material Damage is Said to Have Been Small.

London, Oct. 14.—Zeppelin airships have made another raid over London dropping bombs. Eight persons are declared to have been killed and about 34 injured. The material damage done is said to have been small.

The home office shortly after midnight made the following report on the raid:

"A Zeppelin raid was made yesterday evening over a portion of the London area, when a certain number of incendiary and explosive bombs were dropped. The material damage done was small. A few fires resulted but they were quickly put out by the fire brigade. The admiralty will issue a statement today when particulars are available.

"At present it is only possible to say that no public buildings were injured and that the casualties so far reported number two women and six men killed and about 34 injured. With the exception of a soldier killed all these were civilians.

"These figures include all the casualties reported at 11:45 o'clock Wednesday evening."

### ORVILL WRIGT SELLS INTEREST IN WRIGHT AEROPLANE COMPANY

Aviator Will Become Consulting Engineer of a New Company Which a Syndicate Will Form.

New York, Oct. 13.—Orville Wright has sold his entire interest in the Wright Aeroplane company, at Dayton, O., to a syndicate consisting of William B. Thompson, August H. Wiggin, president of the Chase National Bank of New York, and T. Frank Manville, of the H. J. Johns-Manville company, according to an announcement made here today.

The Wright company which controls all of the patents on aeroplanes secured by Orville Wright and his brother, the late Wilbur Wright, is capitalized at \$1,000,000, of which \$800,000 is outstanding. Orville right owns 97 per cent of the outstanding stock. The purchase price could not be ascertained.

It was also learned that Orville Wright although disposing of his entire interest in the present company, will become consulting engineer of a new aeroplane company which the syndicate will form. It was also stated that Wright will be a stockholder in the new company.

# Capps Week at TOMLINSON'S

How many processes are there in the manufacture of clothes?

If your life depended upon your ability to answer this question, you would stand a poor show. There are not many who could answer it, but we believe scores, especially students in the higher grades and high schools, could tell you more about clothes making than they could last week.

This is because of the exhibit we have shown in our store that has attracted the attention of old and young. We have been surprised at the interest shown by school boys and girls. Our week devoted to a special showing of—

## Capps Clothes

100 Per Cent Pure Wool

Has been a notable one. To begin with we are showing a splendid assortment of this famous make of medium priced suits and overcoats full of style and the most splendid workmanship possible to secure in clothes. Yet people, whether they are clothes buyers or not, have evidenced tremendous interest in the special exhibit to be seen at our store this week.

This shows a few of the many processes in handling raw wool, cleaning and making yarn, weaving cloth, and manufacturing clothes ready-to-wear. The exhibit shows samples of the different processes and raw materials. If you have not seen it you will enjoy doing so.

A special invitation is extended and we will be glad to explain anything that you do not understand, or show you the excellent line of Capps clothes—as usual \$12.50 to \$25.00.

## DON'T SUFFER WITH WINTER ECZEMA

This irritating and exasperating malady can be relieved with  
**S. S. S.**

Winter Eczema, sometimes called TETTER, is one of the many varieties of the irritating and tormenting disease known as Eczema. A deep-seated blood disease that is so often confused as a Skin Disease. Don't think that you can rid yourself of it by washing with medicated soaps or medicated lotions. You will save both your time and money by leaving them alone. Winter Eczema is seemingly dead during the hot months, but with the advent of cold weather it comes to life with renewed vigor. The head, feet and hands are the parts most often attacked, though it sometimes appears on other parts of the body, the skin hardens, cracks open and bleeds, while the itching and burning is at times almost unbearable. Scratching only makes it worse, sores and scabs forming where the skin is broken.

In this form of Eczema brownish white crusts sometimes form which scale off in fine particles, leaving the skin raw and inflamed. It is especially painful and severe when confined to the hands, which often become so badly affected that the sufferer is unable to perform the lightest work. This, like all other types of Eczema, is due to the acid poisons in the blood and not to local causes. The trouble is more than skin deep, and washes, soaps, powders and salves nor anything else applied to the surface cannot possibly do more than soothe the burning and itching or relieve temporarily the inflammation and pain. It is the acids thrown off by the blood and which are forcing their way through the pores that cause the skin to harden, crack and bleed, and produce the irritation and soreness. S. S. S. neutralizes these acid poisons and cleanses the blood of all irritating substances and humors, and does it promptly and effectually. Beware of imitations—refuse substitutes. S. S. S. purifies and invigorates the thin acid blood, and builds up the entire system; then the unsightly eruptions heal; the skin becomes smooth and soft, and all signs of Eczema disappear. Get S. S. S. from your druggist, and write for our special book on skin diseases—free. Write the Swift Specific Company, Medical Department, Room 17, Atlanta, Ga.

## OLD JACKSONVILLE

The City Council of 1874.

By Ensley Moore.

Member of Illinois State Historical Society.

The year 1874 is not so far back as "the founding of the city" or the Deep Snow, or even the Civil War. But it was in some respects quite an important time in the history of Jacksonville.

What was transpiring in Ohio at that time might not seem very influential in this city, and yet it was. For the early months of that year saw the Temperance Crusaders carrying over the Buckeye state with as much abandon as might be expected of women who considered themselves among the best of the best. At any rate the women there made great assaults upon the citadels of John Barleycorn, and the incitement or excitement spread more or less over the country—United States. Perhaps that was presaged the recent campaigns for Women's Suffrage. The women were highly aroused, and, so to speak, had on their warpaint. Jacksonville, of course, as usual, had to have a hand in such a "Progressive" movement.

as mothers, wives, daughters and sisters, to aid in preventing the traffic that causes evil and only evil, and by which our sex and young children are the greatest sufferers.

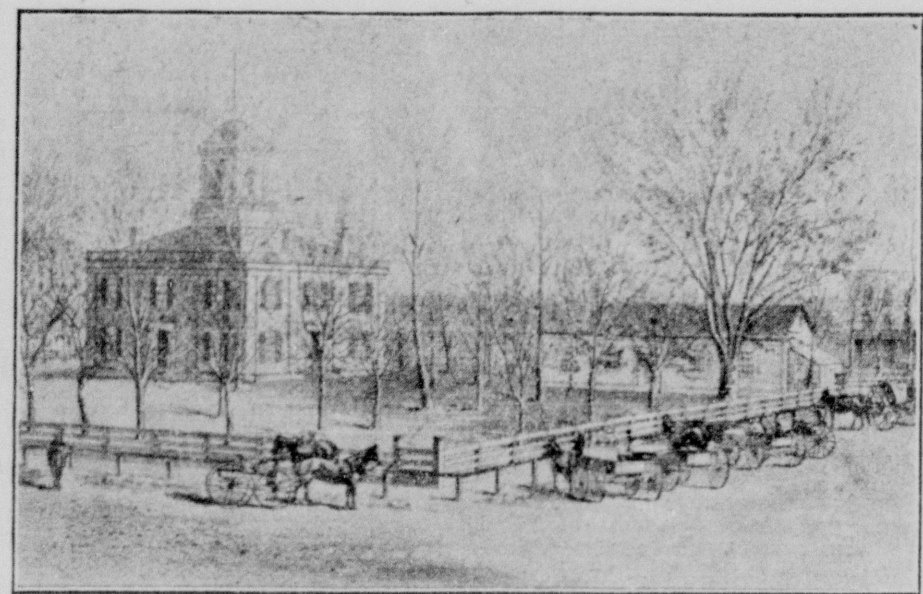

The following resolution was passed at a meeting of the Woman's Temperance Union, held April 11, 1874:

"Resolved, that we also ask your honorable body to prohibit the sale of intoxicating liquors within the limits of the city of Jacksonville."

Mrs. L. A. Washington and Mrs. M. A. Glover made remarks in support of the object of the petition.

Mrs. Washington was the wife of the Baptist pastor, and Mrs. Glover the wife of Dr. L. M. Glover, Presbyterian.

The war was on, and it raged through several regular or called meetings of the city fathers. A special election was called to vote on the question, on May 4, which appears never to have been done. Nothing was accomplished by the

An Old Time View of Pike County Court House and Square.

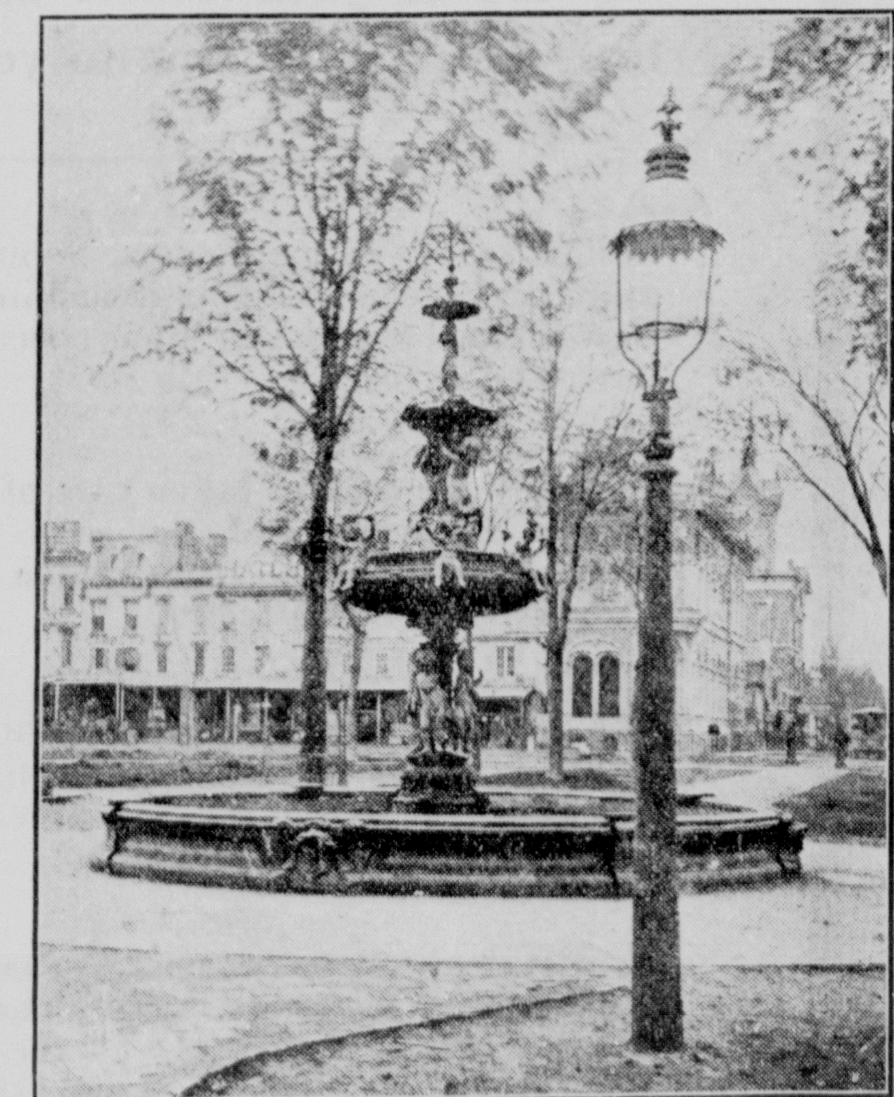

and some of our ladies raided the saloons, and there was a season of decided excitement. One result was the candidacy of A. C. Wadsworth on the Republican ticket for mayor, and Joseph O. King was the candidate on the "Citizens Ticket". The anti-liquor people mostly supported Mr. Wadsworth and the opposition mostly supported Mr. King, who was elected. The other city officers chosen were B. R. Upham, clerk; Bazzill Davenport, assessor; James N. Brown, attorney, and James S. Hurst, marshal. Upham and Davenport were Republicans, Brown and Hurst Democrats. Both Wadsworth and King were Republicans. As aldermen, Wm. P. Callon and V. E. Higgins, Democrats, were elected from the first ward; Philip Lee and Ensley Moore, Republicans, from

ladies, who furnished an approved ordinance, which was duly introduced in the council, and that subject seems to have worn itself out, as the test votes gave the "Citizens" five votes, and the Prohibition Republicans only had four. Finally eleven saloon licenses were issued.

At the meeting held May 7, Alderman Callon, "Citizen", was good enough to introduce the following preamble and resolution, which was adopted:

"Whereas, through the earnest and persistent efforts of the noble women of our city, the nucleus of a free reading room and library has been formed, and

Whereas, we recognize the benefit results which must follow the success of this laudable enterprise, and are desirous by every lawful

the second ward; Wm. Hackman and Dr. Henry C. Stewart, as Citizens, from the third ward, and Abram Wood and the Rev. Andrew Jackson, from the fourth ward. From the council, whether it would be legal for the city to make an appropriation in support of the reading room and library. The city attorney does not appear ever to have filed his written opinion.

But the reading room and library started at that time by the temperance women became "the nucleus" of the present city, public library.

At the meeting May 27, iron pipe for city water mains was ordered at \$51.95 per ton, "or \$31.55 per ton less than was paid the same firm last year for the pipe already laid". Both purchases being in the introduction of our present water system.

July 2, the council began the work which resulted in the removal of the old fence and hitching system

means in our power to aid the worthy undertaking; therefore, "and the gentleman from the first ward requested the city attorney to inquire from the council whether it would be legal for the city to make an appropriation in support of the reading room and library. The city attorney does not appear ever to have filed his written opinion.

To you who have full power to grant or deny our prayer, we appeal

around the present central park, and the substitution thereof of a fine iron fence, with a sidewalk outside of the fence, all around the park, this being designed in part to make it impossible to hitch to the iron fence. The handsome fountain in the park was also provided for. These improvements were fought over, back and forth in the council, and by the goodsox statesmen, and others, and finally the work was done, being one of the greatest improvements ever made by the city government. The idea probably came from the fertile brain of Mayor King who was always in for improvements.

The picture of the court yard and courthouse shown in this connection was not of our courthouse, but much like the one built in 1829 or 1830, and is given to show the younger generation how the square used to look. The picture with the fountain, taken from east of the park, shows how great an improvement was made. In this view the spire of the First Presbyterian church is shown, in the left side of the picture. This church is the one which burned in 1882, and stood at the southeast corner of State and West streets, where the Journal office now is. The picture from which our view is reproduced was furnished by Mrs. Lizzie Williams.

Another innovation made by the council of 1874 was forbidding cattle or horses to be allowed to run at large in the streets. This was resented very strongly by those who wanted to pasture their cows at the public expense, and in the way of the public. One street in the west end used to have so many bovines in it at night that a gentleman called it "Cow street".

Diamond Grove and Jacksonville cemeteries were put in line shape, and roadways in the former were named. The streets were well graded, especially the leading ones of the city. New gas lamps were added to the illuminating features of the city, and the outlying districts were plentifully supplied with gas-line lamps—on streets which had no gas mains.

The council voted to attend the dedication of the Lincoln monument at Springfield on October 15th.

Additional water mains were voted, and the council agreed to pay not over \$1250 in the boring and prospecting for coal. The boring was done on the lot where the Y. M. C. A. building now stands. But no satisfactory amount of coal was found.

At the meeting held Feb. 8, 1875 the council approved the plan for building the present Franklin school house, to cost \$20,000.

The first meeting of the council of 1874 was held April 13, and the last meeting was held April 6, 1875. Few, if any of the city councils have shown more taste and enterprise than this one did.

Alderman Jackson was the boy, who, when the town was being laid out, was told it was to be named for him. He served two terms, and died full of years and highly respected.

### INAUGURATE COLLEGE

Princeton, N. J., Oct. 13.—Rev. Dr. J. Ross Stevenson will be inaugurated today as president of the Princeton Theological Seminary. A large number of alumni and many prominent educators from the East are here for the occasion. Dr. Stevenson is moderator of the Presbyterian Church in the United States. He was for many years a member of the faculty of McCormick Theological Seminary at Chicago. In addition to his duties as president here, he will be professor of the history of religion and Christian missions.

At today's ceremonies Dr. J. Ritchie Smith will be inducted into the chair of homiletics.

### WILL EXCHANGE ROOMS.

C. B. Massey, who has been in business for several years on West Court street in the building owned by L. W. Chambers, has moved across the street to the lower room of the Becker building, occupied by the Jacksonville Clear Box company. Mr. Massey will have temporary quarters in this room and probably will be there a month or more, or until Mr. Rodriguez gets located in his new quarters. Then he will occupy the room now used by Mr. Rodriguez.

### HAVE GONE TO

ATTEND FUNERAL  
Charles Bealmer, Mrs. C. H. Wilson and James Mahan of Sinclair left over the Chicago & Alton Wednesday for Dallas, Texas, to attend the funeral of Mrs. Ralph Bolton.

George Deltrich of the region of Concord was transacting business in the city yesterday.

THE HORSE.

The horse is sliding off the may, his friends at last admit it; he'll hang around a while, mayhap, but soon he'll have to quit it. For things propelled by gasoline increase each day in number, and Dobbin leaves this earthly scene for his eternal slumbers. When autos drove him from the pave of bustling towns and cities, we said, "He's found his urban grave, which is a thousand pities; but on the farms he'll have a place, 'Pl farms are frozen over; along the furrows there he'll chase, and fill himself with clover." But now, alas, he doesn't rank with agriculture's factors; the farmer draws upon the bank, and buys some big steel tractors; and one of these will haul six plows, as through a field it lumbers; the horses see it as they browse, and know they are back numbers. They're shipping now our foaming steeds across the briny water, for Europe needs them where she bleeds and wades around in slaughter. To turn them to the butchers loose—that plan no one indorses; but it's about the only use that's left, just now, for horses.

### AMERICAN LOVE TANGLE

IN BRITISH HIGH COURT

Gossips Wait With Interest Developments in Divorce Suit of Mrs. Ida M. French.

London, Oct. 13.—The gossips of London have their ears stretched and their necks craned to catch the choice morsels of scandal which may drop from the famous Captain French divorce case when it comes up in the High Courts at the session that has just opened. For it is recalled that just as a divorce decree was about to be entered in favor of Mrs. Ida Marcelle French, daughter of Robert J. Wynne, formerly postmaster general in the Roosevelt cabinet, the King's Proctor stepped in and opposed the decree on the ground that her conduct did not entitle her to a divorce. It was then that the international triangle was sprung on the American social world in London. The "man in the case" was alleged by the Proctor to be one Frank Mills Andrews, a New York architect, and the crown's representative went so far in his charges as to claim that Mrs. French had actually been living with the American architect as his wife.

The family of Captain Ronald French, the husband, is as prominent in London as the American family of Mrs. French is in America. The Captain is a cousin of Lord De Freyne, and he recently received a big ovation on his return from service in the trenches in France.

During the investigation of the wife's alleged relations with the New York architect, the only child born to Captain French has been placed in the custody of her grandfather, Major Robert French. The little girl is Valerie Marie French, and she was obliged by the court's decree to travel from the home of her maternal grandfather in Washington to London.

Mrs. French is one of the most beautiful women of the American colony in London. When her father was United States Consul-General here, she was one of the younger social leaders.

The divorce suit was filed in 1913 by Mrs. French, who alleged misconduct with an unnamed woman at Falmouth. The Captain did not defend the suit, and a decree of divorce was granted, with the custody of the daughter. Before the decree was made absolute the King's Proctor intervened, and he has asked the court to rescind the decree.

It is alleged by Mrs. French that Andrews, the "man in the case," accompanied her as her guardian, taking care of her at the request of her father. Much evidence has been gathered by the Proctor from the United States. Paris and London Captain French has made an affidavit in which he declares he knows of no misconduct on the part of his wife. He states that he was introduced to Andrews by American friends in New York, in 1912, and that his wife and Andrews were then friendly. He states he saw Andrews kiss Mrs. French at a cabaret in New York. At another time, he says she and Andrews motored together and did not return until the next day. But, he states, she told him there was "nothing wrong."

### LADIES' AID SOCIETY OF

CHURCH OF OUR SAVIOR MET  
The Ladies' Aid Society of the Church of Our Savior met Wednesday afternoon with Mrs. A. J. Gilbert of East College street. The hours were from 2 to 5 and there was a large attendance of members. After the business session the time was spent socially and a number of contests were held. Prizes were won by Mrs. John O'Donnell, Mrs. Harry Potter and Mrs. McSherry. The next meeting will be held with Mrs. Fred Kumbie of West College street, Wednesday, Oct. 27.

### BOULEVARD LIGHTS

IN OPERATION.  
For several weeks work has been under way for the installation of ten boulevard lights in front of the State School for the Blind on East State street. Eight of them have been completed and were put in operation Tuesday evening. The remaining two will be erected as soon as brick cranes for the foundation which support the iron column. The lights greatly improve the neighborhood and are highly appreciated by residents in that vicinity.

### WILL BE HERE TODAY.

W. C. Hurst, general manager of the Chicago, Peoria & St. Louis railroad is expected in the city today on a tour of inspection of the road. He will visit the shops and probably will spend several hours in the city.

PHILADELPHIA, Oct. 13.—In the fading sunlight of a beautiful October afternoon, Harry Hooper of Capitola, California, decided to bring the World's Series of 1915 to a close.

Hooper trots around paths. "Colonel" Eppa Jephtha Rixey of Charlottesville, Va., was hurling for the faltering Phillies and there was one out in the ninth inning when Hooper faced the erratic southpaw. The "colonel" broke two fast curves over the plate for called strikes. The home rosters howled in glee. This noisy approval evidently made Rixey over-confident for a moment later he grooved one. There was a swish, a crack of hickory against horse hide and a white streak headed for the centerfield stands. The ball fell to the ground and then with a long bound it went into the crowd and Hooper trotted around the paths.

The Phillies still were due a turn at bat but there was not a soul among the more than 20,000 crowded in the park who did not know the series was over and that the Boston Red Sox had won another championship of the world—four games to one.

Flustered but still fighting, the standard bearers of the National League went through the formality of completing the last inning but not a man could get to first.

Game is a Fight from the Jump.

This last game of the series was one to stir the blood. It was a fight from the jump, with the issue ever in the balance. Twice it seemed Philadelphia had a winning margin but twice the Red Sox hammered their way to the front. Piling up three runs in the eighth and ninth innings they got the decision 5 to 4.

It was a battling bee in which the Phillies got an earlier start. Their war claws were ringing loudly when the Red Sox determined to take a hand in the affray. From that time on there was a clanging chorus. For the first time in the series the hum of the "homers" was heard in the land. The Boston hitters got the range of the short field stands in center and sent three balls there for the circuit. Hooper got two of the home run smashes and Lewis another.

Short Fences Prove Phillies Undoing

The Philadelphia players who had had their batting sights trained on the stands and close-set fences long before the series began vainly tried to meet the invaders at the home run game. Luderus lifted one high over the right field wall in the fourth but here the heavy firing of the home folks ended, and for the last five innings there was never a threat of Philadelphia rallies. The short fences of the little Philly park which had expected to prove a benefit to the home players, proved their undoing.

Cravath, home run monarch of the National League, was expected to break up several games with smashes out of the lot but he got his long hits in Boston where they were speared for sensational outs and before the home crowds "Gavy" could only whiff the air when the fans were frantic for a hit. He had an ideal chance today in the first when the bases were full and nobody out, but "Gavy" hit into a double play. He fanned twice thereafter.

Red Sox Just a Little Better.

All through this world's series the Red Sox have been just good enough to win. They lost their first meeting with Alexander but thereafter were not to be denied. When the Philadelphia team belted brilliantly the Boston players shone with just that greater degree of radiance at the bat. When the Philadelphia pitching was airtight the Boston twirling was just a little tighter. And today when the long silent bats

of the Phillies began a litting song of biffs and bingles the Boston bats crashed in more strident tones. Never very far above their rivals in any one of the five games the men of the American league in the last four starts were always just within the shadowy line of success.

It was a hard series for the Phillies to lose but a brilliant victory for the Red Sox.

Phillies Fight Stubbornly.

Supposedly outclassed from the start, with the exception of one star pitcher, the Phillies fought stubbornly and desperately and were not without plenty of chances to win each game they lost. The drive, the "punch," the ultimate smash was missing, however, and they could never give their pitchers a comfortable margin to work under.

Seemed the tide was about to turn this afternoon when the National League team carried two runs to the eighth inning with two hits to the good. But the Red Sox were out for victory and their stinging hits for a total of twenty-one bases sounded the death knell of Philly hopes.

Moran Springs Surprise.

Manager "Pat" Moran, of the Phillies, sprung a surprise on the Sox when he announced J. Erskin Mayer of Atlanta, Ga., as the flinger to make the last stand for the home team. It had been taken for granted that Alexander would be sent to the club in the final heat for the National Leaguers and this belief was strengthened when "Big Alex" began to warm up just before time was called. Mayer was also under way. Moran studied the two pitchers for a long time and then patted Mayer on the back. The wise ones said Moran had decided to take a chance on winning today's game so that he would have Alexander ready tomorrow for a possible tying up of the series.

At any rate Mayer looked good to Moran today, but he looked even better to the Red Sox. They were having a batting holiday at his expense when Moran stopped the proceeding in the third and waved Mayer to the bench. The home players had given Mayer two runs in their half of the first but the Sox hammered home a similar number and had gathered six hits off the Georgian when he flung his glove away dejectedly and ducked for the Philly dugout.

Rixey Stops Sox Assault.

"Colonel" Rixey was called to the mound and the Sox assault was suddenly stopped. The home team gave the "Colonel" two additional runs in the fourth inning and it seemed that he was destined to be a winner until the visitors took their eighth turn at bat.

Gainer, the first man up in this frame, connected with one of the left-hander's slippery slants and sent it for a journey over the infield for a single. "Duffy" Lewis, already credited with driving in two of the Red Sox victories, had spent a quiet and uneventful afternoon up to this time. He hadn't caught hold of the ball at all. But on this spectacular occasion it was different. He met a fast one squarely on the nose and the crowd groaned as they saw the milk white sphere sailing away for a home run.

"Duffy's" Homer Ties Score.

Up to this time the thousands of Philadelphia fans gathered for the fifth conflict had been confident of victory. They had been treated to more thrills than all of the other games of the series together had offered. There had been all sorts of business jammed in the early innings. A mid-summer sun, misplaced in a blue October sky, gave real baseball warmth to the atmosphere and the bleacherites had early doffed their hats and coats. It was cruel descent to the depths of despair for them when "Duffy" Lewis, batting mainstay of the Sox throughout the series, sent his homer into the stands and tied the score. This long hit made it possible for Hooper's homer to give the finishing touch to one game and the series.

But the Philly fans were as game sportsmen as their ball players had been and were as generous as their players had been gentlemanly. They knew the Phillies' star was fast setting but they cheered Lewis for his batting prowess.

They cheered him as a brilliant factor in the triumph of the Sox in all the games they won and they applauded him as one of the men who reflect credit upon the national game.

In the fatal ninth when Hooper sent his second homer to the crowd, the rosters who groaned with sure knowledge of defeat, did not deny to the sturdy Californian a similar mood of praise.

Foster Gets Warm Reception.

George Foster, of Bokoshe, Okla., won the second game of the series. Foster got a warm reception today from the very start but he stuck

gritly to his task and finally withstood the most furious fusillade that the Phillies had fired throughout the series.

Smashed and hammered in the first and fourth, Foster was always fighting back. He never lost his head, fielded splendidly and was always a dangerous factor at the bat. He gave as game an exhibition of twirling as has ever been seen in any league and there were few partisans in the Philly stands who begrudged him the victory the long delayed home runs of the series threw his way.

Larry Gardner, the Sox third baseman, really began the heavy firing of the game when, in the second inning he crashed a ball against the centerfield stands for three bases. The drive missed being a home run by inches only.

The Phillies made nine hits off the diminutive Foster for a total of thirteen bases. This hitting was good enough to have won any of the games that went the way of the Sox except the contest today. The Sox Friday last always seemed to hold the winning hand.

No Cleaner Series Ever Played.

No cleaner series was ever played. The men of both teams won the hearts of the fans both here and in Boston by their gentlemanly conduct on the field and the sportsmanlike manner in which they went about their work.

One notable feature of the series was the lack of base running. It seemed from the start as though pilfering had become a lost art. Both the Boston and the Philadelphia catchers made the runners look like truck horses nearly every time one started from first to second.

Today four Philadelphia players and one member of the Red Sox started to steal. All were cut down while many feet from the coveted bag. The catching of "Eddie" Burns for the Phillies has been of the highest order throughout the series. An injury to Killifer's throwing arm put upon the "second string" backstop the entire burden of the series but he proved of sterling worth and will long be remembered by those who have seen his work.

While the closing game of the series abounded in thrilling plays and kept the thousands of spectators on edge from the first to the final inning, it was a loosely played contest in which the offensive strength of both teams overshadowed their defensive work. None of the pitchers that figured in the fifth game, Foster included, were able to hold the batters in check in the manner of their predecessors.

Broadly speaking it was a battle between the batters and the outfielders in which the former had a decisive advantage all through the nine innings.

#### SPORTING NOTES.

The postponed bout at Milwaukee between Joe Rivers and Johnny Dundee is set for tonight.

Tris Speaker is reputed to draw down \$18,000 a year, while Grover Alexander, the king-pin of the Phillies, is said to get one quarter as much, \$4,500.

The Cincinnati Board of Education has placed baseball umpiring among its night school courses of instruction. It was at night school that most of the ump's got their training, say some of the big league managers.

The star horse event of the week is the Fort Thomas Handicap, six furlongs, for two year old, which will be run at Latonia on Saturday. Kentucky has a monopoly on the racing game during October.

DEDICATE NEW ARMORY.

Quincy, Ill., Oct. 12.—The dedication of the Fifth Infantry armory of Illinois was featured here today by the presence of Governor Edward F. Dunne and his official staff. The visiting officials were extensively entertained by the military men of the city.

#### LONG PREDICTED

STRIKE IS A FACT.

Cleveland, Oct. 12.—The long predicted strike of machinists at the plant of the Warner and Swazey company was a fact today. Three hundred pickets surrounded the factory when work started this morning. Many machinists on the day shift were persuaded to join the strikers as they appeared for work. The strike was declared last night and large numbers of the night shift failed to report for duty.

Maurice E. McLaughlin ranks himself as third in the season's tennis stars for this year, putting John Johnston and Williams ahead of himself.

## "DUFFY" LEWIS OF RED SOX LEADS HITTERS IN THE WORLD'S SERIES

Foster Has Highest Average—Luderus of the Phillies is Next to Lewis With .438.

Philadelphia, Oct. 13.—The official averages of the world's series, which closed with the Red Sox a winner in four of the five games played, shows George Foster, the little pitcher of the Red Sox as the best batter with an average of .500, although "Duffy" Lewis of the Boston club was the real leader with .444 and Luderus of the Philadelphia club second with .438. #### CARRANZA FORCES CAPTURE

CAPITAL OF STATE OF MEXICO

MEXICO CITY, Oct. 12.—It was reported at constitutionalist headquarters here tonight that the city of Toluca capital of the state of Mexico was captured this morning by constitutionalists under Colonel Cosío Robelo. The taking of Toluca is considered an important event as it is the grainery for Mexico City. Toluca is said to have been in a miserable condition when the constitutionalists entered. Many millions of dollars worth of Carranza paper money are said to have been used there from stolen plates.

The headquarters of the constitutionalists also reports tonight the defeat of Eufemio Zapata and his forces near Los Reyes by constitutionalists under General Jarax.

## 25 CENTS DESTROYS YOUR DANDRUFF AND STOPS FALLING HAIR

Save Your Hair! Make it Thick, Wavy and Beautiful—Try This!

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scour.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A Little Danderine tonight—now—any time—will surely save your hair.

25-cent bottle of Knowledge's Danderine from any drug store or toilet counter, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance, an incomparable gloss and softness; but what will please you most will be after just a few week's use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp.—Adv.

## TAKE "CASCARETS" IF HEADACHY, BILIOUS AND CONSTIPATED

Best For Liver and Bowels, Bad Breath, Bad Colds, Sour Stomach.

Get a 10-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gasses, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months.

Send Your Collars to Us if You want them to last. We guarantee to increase the wearing life of your collars one-third Doesn't this mean something to you? It Should.

Collars sent to us are molded on our Prosperity Molding machine instead of being ironed in the old way. The new method preserves them because it doesn't break down the edges.

Not only are collars taken care of as they should be in our Laundry, but the same careful attention is given to all fabrics—from cotton to fine linens. Your satisfaction is our success.

We are particularly anxious to show you the manner in which we turn out those fancy silks and dress shirts. We keep them looking like new and so they fit like they did when new.

Now is the time to consider the handling of your family washings. We handle them as cheaply as you can do them at home, saving you all the fuss, bother and risk from colds and illness in the family. Rough dry, all flat worked ironed, only five cents a pound. Call us up about this and let us give it a trial.

## CONFERENCE HELD ABOUT PROPOSED SWITCH

CONNECTION WOULD SAVE THE STREET PAVEMENTS FROM HEAVY HAULING.

**Board of Administration Members and Railroad Men Here—Mr. Kern Declares for All Improvements—New Rules of the Board Quoted—Further Conference Likely to Result in Desired Improvement.**

The luncheon arranged by the Chamber of Commerce for the purpose of discussing the question of a switch connecting the Chicago & Alton railroad and the Illinois Traction system was held Wednesday at the Peacock Inn. Members of the state board of administration, representatives of the Chicago & Alton railroad, the Illinois Traction system, the city government of Jacksonville and of South Jacksonville were present, in addition to a number of citizens. The sentiment as expressed was almost unanimously in favor of the proposition, although J. H. Hackett, representing the South Jacksonville board, was not ready to voice the sentiment of the board there. The proposition is to build a Chicago & Alton switch on the north side of the Vandalla road and thus make possible the transfer of coal cars to the street railway lines for transportation to Jacksonville state hospital and also to the plant of the Jacksonville Railway & Light company. The question has come into prominence at this time because of the paving work which is in progress on South Main street, making it advisable for any new track connections which are contemplated to be laid now so that it will not be necessary to disturb the new pavement.

John J. Reeve, president of the Chamber of Commerce, presided, and he first introduced Mayor H. J. Rodgers for brief remarks. Others who talked were Hon. F. J. Kern, president of the state board of administration; S. G. Lutz, traffic manager of the Chicago & Alton railroad; W. B. Miser, superintendent of the Jacksonville Railway & Light company; and J. H. Hackett of the South Jacksonville village board. There were fifty or more

## TREAT CATARRH BY NATURE'S METHOD

Every Breath of Hyomei Carries Healing Medicated Air to the Infected Membrane.

Nearly every one who has catarrh knows how foolish it is to try and cure it with sprays, lotions, and the like. Temporary relief may be given, but a cure seldom comes. Until recently your physician would probably have said the only way to help catarrh would be to have a change of climate; but now with a simple preparation called Hyomei you can carry a health-giving climate in your vest pocket and by breathing it a few minutes four times a day successfully treat yourself.

The complete Hyomei outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a life time, and if one bottle does not give permanent relief, an extra bottle of Hyomei can be obtained at any time for a trifling sum. It is more economical than all remedies advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her method of treating diseases of the respiratory organs.

Coover & Screeve sold a great many Hyomei outfits and the more they sell, the more convinced they are that they are perfectly safe in guaranteeing to refund the money if Hyomei does not relieve.—Adv.

gathered about the tables for the luncheon which was excellently served. Dr. F. B. Madden, pastor of Grace church, said grace.

### Co-operative Effort.

After the luncheon President Reeve, before introducing the several speakers, outlined the intent of the conference and spoke of the need there is for co-operative effort in community life and also of the need for stopping any economical waste. He said that it was recognized that the life of the paving on South Main street previously laid had been materially shortened because about twenty-five thousand tons of coal a year was hauled over it for use at the light plant and Jacksonville state hospital. He said that aside from other questions involved, that it did not seem right for property owners on that street to be compelled at intervals of fifteen years or so to pay for a pavement which would have lasted much longer if unnecessary hauling over it had been prevented.

Mayor Rodgers said that the city officials of Jacksonville were deeply concerned in the present question and felt that the proposed switching arrangement would be of benefit to everybody concerned and would be an important factor in keeping the new pavement in good condition. The mayor spoke also of the advantage of such a gathering in bringing men together and helping them to become better acquainted.

In introducing Mr. Kern, president of the state board of administration, Mr. Reeve said that one of the purposes of establishing the board of administration was that economic waste in the management of state institutions might be cut down. Mr. Kern in his opening sentences left no doubt as to the position of the board. The members, according to Mr. Kern, are most heartily in favor of improvements at any and all of the institutions and are willing to do anything in their power to assist in such improvements.

### Board Favors Improvement.

Mr. Kern said in part, "We are in favor of every local improvement whether it will benefit simply the institution or the community as a whole. We are here today to confer about, and remedy if possible, a defect in transportation facilities. This may be a belated day, but there is no use in talking about that. Jacksonville was the first and thus the oldest institutional city. The state institutions were located here before there were any railroads or switches. Now in seeking an institution site the very first question considered is the accessibility to a railroad or a switch. We are here today to help in every way possible to remedy this deficiency, and we say, if you are interested in the proposition and have any plans in mind, 'go to it' for you will have our earnest support and co-operation. You have a city which excels not only industrially but as an educational and institutional city."

"That you are progressive was proven to my mind when you decided a few weeks ago to stand by the commission form of government which you had established. Any city which has taken this advance step in municipal government is progressive, and I consider it a further evidence of your progressiveness that you own and operate a part of your utilities, keeping possession of your water plant and of the plant from which your streets are lighted. The board of administration strives to handle the affairs of the state institutions along progressive lines. There are twenty-one institutions under our control, with inmates totalling 22,000, and with a payroll including 3500 employees. Our policy has been to build up and enlarge the institutions in accordance with their needs. We have increased the floor space and in the conduct of the institutions have made advancement along humane and Christian lines. In the treatment of the insane some abuses have been eliminated, mechanical restraint and seclusion have been abolished and in all of the state institutions in Illinois this afternoon or tonight you will not find one patient subjected to these things. These are progressive ideas, but we have made them actual and have achieved ideals along these lines."

### New Rules and Employees.

"In spite of the war and turmoil abroad, we in this country today, I believe, are making constant progress toward better things. We found that some of the unrest and peevishness shown by employees was due to overstrain and we determined that the best remedy was to treat the employees better, and in the wish to be fair-minded we adopted the rule which made the eight-hour system effective and now no employees are required to work fourteen, sixteen and eighteen hours a day as was formerly true. The plan also makes it possible for each employee to have the deserved one day's rest in seven. Further the board has issued an order which includes an automatic system of salary increase for employees who remain faithful during a period of years in the state service. I mention these facts to give proof of the progressive spirit which actuates the board and to show you that in our desire to co-operate in the proposed local improvement, that we are moving along lines consistent with our general policy. I have reason to believe that you have today a very progressive city administration, whose desire is to make Jacksonville a real city beautiful."

"If you have an adequate sewerage system, clean streets and beautiful parks you will have a city with surroundings which have a tendency to elevate all. If we would improve the condition of those who are somewhat down in the social scale, the first thing is to clean up and make their surroundings and environment wholesome and it will not be long until they yield to the influence of these surroundings."

**People Interested in Utilities.** Chairman Reeve spoke again of the necessity for co-operation if the city is to really advance and mention-

ed that Jacksonville and the management of the local utilities must be in accord with sympathy for the interests of both. He then introduced W. B. Miser, superintendent of the Jacksonville Railway & Light Co. Mr. Miser said that he could give assurance that the company would be glad to co-operate in any betterments for the advantage of the community as a whole. He said that when he first came here two years ago he noted the economic waste resulting from the means of transporting fuel and that he had soon afterward worked out a plan for a switch near the Vandalla road, as previously mentioned. He said that there would be some details which would have to be worked out after consultation with Mr. Chubbuck, but that the company was ready and anxious to have this improvement made and would welcome a further conference.

J. H. Hackett, speaking for South Jacksonville, said that every question had two sides and that the one under consideration must be classed in this same general way. Primarily he thought that street railways were intended for passenger transportation and that it was not a good idea to turn them into freight lines. He thought possibly the fairest way for eventually settling the question would be to refer it to the property owners along the line of the street railway, who would be most affected by the annoyance there might be from the transportation of freight cars. The speaker was not ready to say that South Jacksonville was opposed to the plan, but did not wish to make any statement which would commit him in any way.

**Railroad View.** S. G. Lutz, traffic manager of the Chicago & Alton railroad, was next introduced and said that while he was a stranger to most of those present because he had not been long connected with the Alton, that through Mr. Charlton he had come into considerable knowledge of people and affairs in Jacksonville and was certain that this city is one of the best along the Alton road. He said that the proposed switch would evidently correct a lot of lost motion in transportation affairs and that the Alton would be glad to join in the proposed improvement. He agreed with the suggestion made by Chairman Reeve that in a matter of this kind it should be possible to reach an agreement without calling upon the utility commission. He said, as had Mr. Reeve, that in most cases if an agreement could be reached without reference to the commission, that it would be more satisfactory, less expensive and more quickly attained. Further Mr. Lutz said that he had some time ago made a proposition to the state about the proposed switch but had heard nothing from it. He said that the Alton would be glad to reiterate the former proposal or to modify it in any reasonable way. This ended the formal program, and afterward a half hour was spent in conversation, all of the local men being introduced to the visitors present.

### Those in Attendance.

Mayor H. J. Rodgers, President J. J. Reeve, Secretary Carl H. Weber; Members Board of Administration: Fred J. Kern, Pres.; James Hyland, Secretary; Frank D. Whipp, Fiscal Supervisor; Geo. A. Zeller, M. D. Allenist, Thomas O'Connor, S. G. Lutz, General Traffic Manager Chicago & Alton R. R.; P. H. Bates, Operating Engineer Illinois Traction System; M. ### APPLE PICKERS.

Men's ingenuity makes farm work more pleasant and easier each year. Now they have an apple picker. When there is a big apple crop it is always a problem to gather the crop. Someone has invented an apple picker. It is a small round affair open at the top and made of wire. On one side the wires run up and are slightly bent to go above the apple and pull it from the branch. It falls into basket arrangement which probably will hold several ordinary sized apples. The basket arrangement is fastened on a long pole that will reach the top of most apple trees when the user is standing on the ground.

### MICHIGAN DEFEATS MARIETTA.

Ann Arbor, Mich., Oct. 13.—Battering ram football game the University of Michigan eleven a 28 to 6 victory over the speedy Marietta, O., college team here today. Smashing old fashioned play enabled the Wolverines to obtain a winning margin in the first half after which the visitors braced and gave Michigan a merry fight.

### CALLED TO NEW YORK.

Dr. and Mrs. Wade H. Schott of Alexander have gone to Waterloo, N. Y., to attend the funeral of Walter H. Bacon, Mrs. Schott's father. Word was received Saturday of last week that Mr. Bacon had passed away, very suddenly, it is thought, as a letter received by Mrs. Schott the day before mentioned no illness in the family.

### NEW CORN.

New corn is beginning to come to the city and is a very good sample. A gentleman brought in a load of fine grain yesterday and said he received sixty cents a bushel for it. It was the well known Reid Yellow Dent and an excellent article. He said he had been feeding his horses with it for several weeks.

## COINS FOR OTHER LANDS.

South American Money Is Made in Our Mints at Cost Price.

"Made in the United States" might in all truth be stamped on the coins of nearly a dozen of the countries of Latin America in which a shopper would try in vain to buy merchandise bearing that slogan, for, though the United States does not ship great amounts of goods to the countries between the Rio Grande river and Cape Horn, it does supply them with a large part of their money, says the Washington Star, and this, in spite of the Spanish phrases and foreign emblems that it bears, is the product of Uncle Sam's own mints.

Since the authorization to coin money for foreign countries was given to the mints by congress in January, 1874, more than 100,000,000 pieces of gold, silver and base metals have been minted for countries in North, South and Central America and the West Indies and for Hawaii before its annexation.

All foreign minting by the United States is done at a price that just covers the cost. There are two reasons for the government engaging in the business. It puts this country in a position to do neighborly acts, and it allows us to keep our coining equipment and force of operatives busy during periods when it would otherwise be necessary to suspend operations. The decreasing need for mints with our vast accumulations of coins, the growth of banking and the use of paper money is shown by the fact that of the seven mints that have been in existence in the history of the country only three are now equipped for turning out coins, the others having been either abandoned or turned into assay offices.

## DIVORCE IN SCANDINAVIA.

It Is Very Easy to Obtain, and It Does Not Cost Anything.

In Scandinavia divorce by mutual consent is the recognized way. And husband and wife may reach this agreement when neither has violated any marital obligation. The law, you see, does not require them to wait until one has wronged the other. But when they have reached the point where they two know that their real union is ended they may secure a divorce for the asking. It doesn't cost anything. There is not even a lawyer needed. The process is simple. You notify a magistrate that you are separating. You are not required to go into details. You don't have to spend your marital troubles on court records and newspaper pages.

One reason is as sufficient here as when you entered into matrimony. You simply state that you no longer wish to continue the marriage. Then one party to the contract goes away for a year—in Finland it is for only three months. At the end of the period the magistrate hands you the papers that dissolve the marriage as quietly as it was made.

If, as rarely happens, mutual consent through the refusal of one of the contracting parties cannot be secured the process is a little longer, the probationary period of one year being extended to two. But there is always a way out. Sweden has no less than twelve grounds for divorce. It is accomplished in as dignified a way as any other partnership might be dissolved.—Mabel Potter Daggett in Pictorial Review.

### Baths in Finland.

One of the greatest trials a visitor in Finland has to endure is a Finnish bath. The method of procedure is unique. Divested of outer clothing and attired in a light and airy cotton garment, you are slung in a sort of hammock composed of cord above a large receptacle like the boilers in public laundries. This is almost filled with cold water, into which at the right moment is flung a large red-hot brick or piece of iron, which, of course, causes an overwhelming rush of steam to ascend and almost choke you. Then when that process has gone on sufficiently long you are shaken out of your hammock, immersed in cold water, and after very drastic treatment you resume your raiment, sadder and wiser than before your novel experience.

### The Cocoa Plantation.

A traveler in South America, where the cocoa tree is largely cultivated, speaks of the great care with which the young plants have to be protected from the sun, which if very strong is fatal to them. To secure this protection the planters shield them by banana trees and plantain trees, the broad leaves of which give them the needed shade. And even when they are fully grown they need protection, which is given by trees known as "immortals," or, as the planters call them, "the mother of the cocoa." Thus the whole cocoa plantation has a sort of canopy.

### The Member For Calais.

There was a time when Calais was represented in the English parliament. It was in the reign of Henry VIII. that Calais was granted the right to send its representative to Westminster, and the names of some of its members have been preserved. Its last sitting member, for instance, was one Edmund Peyton, alderman of Calais.—London Standard.

## HARRISON DICKSON MAKES FINE RECORD AT Ft. SHERIDAN

Member of Local I. N. G. Company High Man on Rifle Range With 600 Competing.

Chicago papers chronicle the fact that Harrison A. Dickson and S. M. McConnell of company D, at Ft. Sheridan took high place on the rifle range. Dickson made four bulls eyes in five shots at five hundred yards, and also made forty-nine out of a possible fifty at five hundred yards, perfect scores on the shorter ranges and forty-four out of a possible fifty at rapid fire, finishing high man. Dickson is sergeant in company B. of the Illinois national guard and the record he has made is not only a great credit to him personally but also to the excellent training he has received with the local company. The record is especially noteworthy when it is remembered that there are six hundred in attendance at the army training camp at Ft. Sheridan and the best army marksmen of the state are gathered there.

Every person who has visited the army training camp has been enthusiastic over the work being done, and an inspection of a day's routine makes a distinct appeal to patriotism. Some of Chicago's most prominent business and professional men are sacrificing time to attend this training camp, and the whole effort, like the one at Plattsburg, N. Y., is doing a great deal to make plain the need there is for a reserve force in this country and how useless such a reserve force would be without trained officers to command.

With a civilian reserve force, the national guard and the regular army preparedness will be well in hand.

### PROBATE COURT.

# This Is the Package

It is never sold in bulk

NEVER let any grocer tell you that he is giving you "America's Cup" in any but this package. I pack every pound in this package so that it will keep fresh and full of strength until it reaches you.

IT is sealed inside and outside, and has paraffined protection against reaching you in any other condition than the very best. And it not only keeps all the coffee IN, but it keeps everything else OUT. So it is to your interest that "America's Cup" reaches you in the original package.

## You Can Get it in the Berry, or Steel Cut

IT really makes no difference to me, you or the grocer. However, if you do not use much coffee, I recommend that you buy it in the berry and grind it as you need it. No coffee, no matter what kind it is, will retain its strength as well when cut as in the berry.

EVEN "America's Cup" will not—and it is glazed with pure white of egg and granulated sugar just before it goes into the package. You see, I do EVERYTHING that is possible to do to insure you getting a perfect product—and then put in a valuable coupon besides!

## \$15,000.00 Money-Raising Sale

Here's the whole story in a nutshell. It will pay you to investigate.

### A Sacrifice Sale in Grim Earnest

A sale unlike any Jacksonville has ever witnessed, just because we must raise \$15,000 at once. We must meet impending obligations immediately. "Necessity knows no law." So we are cutting and slashing every price in such a ridiculous manner that we will raise the necessary amount in one week. Read the items, note the offerings—the prices tell the story.

### CONDUCT OF J. H. S. STUDENTS PLEASED CARLINVILLE PEOPLE

That the conduct of the Jacksonville High school students and football team at Carlinville was splendid is evidenced from the following taken from the Carlinville Democrat:

"It was Jacksonville high school vs. Carlinville high school, and it was a battle royal. With the visiting warriors came a splendid band of twenty-four pieces; the superintendents of the school, Supt. C. E. Collins; the high school coach, W. H. P. Hower; the financial manager of the athletic association, Paul E. Morrison; Dale Boxell, the assistant coach; Fred Goodrick, the band master; Paul Wells, assistant in the manual training department; and several high school students, making a total in attendance from our visiting city of 52.

"It was a splendid bunch of young people and their stay in the county seat of Macoupin will be remembered by us all with pleasure. They have a splendid band, one of the best high school bands in the state; they discoursed music in our public square, they gave a concert at the ball grounds, and when their warriors were beaten, and fairly beaten in a gruelling foot ball game, they showed themselves splendid losers. We congratulate Supt. Collins, and we frankly admit that it put our boys severely to the test to win the game."

We have on sale this week a number of smartly trimmed silk velvet hats at \$2.00. Carroll Millinery Parlors, 859 Routt street.

### NORMAL UNIVERSITY PLAYER BREAKS RIB IN PRACTICE

Former Captain and Guard on This Year's Team of the Teachers Out of the Game.

While scrimmaging Tuesday night Earl Bowyer, captain of the Normal University football team and a guard of this year's squad, sustained a broken rib as the result of trying to dive under Leggett, one of the half backs of the second team. Bowyer was one of Coach Russell's strong defensive players and he will be greatly missed.

Coach Harman did not get such a good work out with his men last night on account of the muddy condition of the playing grounds. He is expecting a hard battle with Normal on their own field Saturday, as they are considered one of the strongest eleven in the minor conference.

Coach Russell has announced that the same line up which finished the game at Decatur last week will start out against Illinois Saturday.

### SOCIAL EVENTS

#### Entertained Society.

The Ladies Missionary society of the Antioch church held their dinner yesterday at the home of Mrs. Theodore Lukeman. Thirty-five were present. The guests of honor were members of the Union Baptist church of Pisgah. A most delightful time was spent.

#### Pastor's Aid Society.

The Pastor's Aid society of the First Baptist church met Wednesday with Mrs. O. N. Barr. Mrs. Percy W. Stephens was in charge of the program. Part of the afternoon's program consisted of two solos by Mrs. Elmer Ellis, "Annie Laurie" and "Baby" by Mrs. Leach. Six dozen handkerchiefs were donated for the free kindergarten. For amusement each lady told her funniest story. Refreshments were served in charge of Mrs. Joseph Shreve.

#### Miss Vivian Smith to Wed.

At a party given Tuesday evening at the home of Mrs. S. Weir Brauer, 520 South Diamond street, announcement was made of the approaching marriage of her sister, Miss Vivian Smith to Mr. Roy Goodrick, the ceremony to take place Wednesday, October twenty-seventh. The announcement was by means of a peanut hunt, one of the nuts containing the news. Games and music helped to pass the afternoon and suitable refreshments were served.

#### China Rush for Miss Lulu Woodman.

A china rush was given Monday evening for Miss Lulu Woodman by Mrs. Mary Smith and daughter Mrs. S. P. Birdsell at their home on Sandusky street. The decorations were yellow and white. They were assisted in entertaining by Miss Amy Pires. About twenty-five of Miss KWoodman's friends were present and the evening was spent in a pleasant manner. Miss Woodman was presented many beautiful gifts. During the evening light refreshments were served. Mrs. Edward Henry and Miss Eva Bryson of Chicago were guests of honor.

### THE BIRTH RECORD

Born Wednesday morning to Mr. and Mrs. Theodore Zimmer, Mount Road, a son, Edward Zimmer.

### VISITING SCHOOLS.

County Superintendent H. H. Vasconcellos has for the past few days been visiting the schools of Nortonville and Franklin precincts.

### STOCKHOLDERS WILL DECIDE.

New York, Oct. 13.—Whether the Pacific Mail Steamer Company will dissolve its big trans-Pacific business and liquidate its assets will be decided by the stockholders at the meeting called for today at the New York office of the line. The officials of the line have made public announcement of their decision that the line cannot continue to operate under the La Follette Seamen's act, which will go into effect next month.

The controlling interest in the Pacific Mail is the Southern Pacific railroad, and it is said that the latter is through with the steamship business. It has been said in Wall Street that the Pacific Mail would continue to operate under its charter so that it might re-enter the Pacific trade on a large scale in event the sailors' law is repealed.

The Pacific Mail is capitalized at twenty millions, with shares at \$100 par. A proposition has been drafted to be submitted to the stockholders today to reduce this stock to five dollars a share, the balance to be converted into a surplus fund.

### MRS. CARRIE ALEXANDER

President of W. R. C. All members of the Woman's Relief Corps, who are not all ready informed, will be glad to learn that their National President is Mrs. Carrie Thomas Alexander-Bahrenburg of Belleville, Ill. The Department of Illinois of the W. R. C. has a membership of over 12,000 and a convention vote of forty-two and yet we have not had a national president since 1898-99, then Mrs. Florence Miller of Monticello, Ill., held that office.

### OPEN MISSOURI HIGHWAY.

Kansas City, Mo., Oct. 13.—The Ozark Valley Highway, between this city and Springfield, Mo., is being dedicated today. Motorists throughout this section started from Springfield today for a tour of the new highway, and will make stops at Clinton, Osceola and Kansas City.

### PLANS COMPLETED FOR FOUNDERS' DAY AT ILLINOIS WOMAN'S COLLEGE

Senator Lawrence Y. Sherman will deliver the Principal Address of the Day—Concert to be Given in Evening.

Preparations are practically completed for the observance of founders' day which will take place at Illinois Woman's college Friday. The main event of the day will be the address of United States Senator Lawrence Y. Sherman. Mr. Sherman will speak in Music hall at 10:00 o'clock Friday morning. Senator Sherman is a trustee of the college and has been quite active in the work of the institution. At the present time Senator Sherman is one of the most prominent figures in public life in the country. Recently he has delivered a number of addresses in various parts of the country and his utterances have attracted widespread attention.

Mrs. Hiram P. Dillon of Topeka, Kas., is here for the founders' day exercises. Mrs. Dillon is a daughter of the late Judge William Brown, one of the founders of the institution and for many years a prominent citizen of this community. Mrs. Dillon will present a portrait of her father to the college. During her stay here she will be a guest of W. F. Brown and family on West College avenue.

Judge Brown came to Jacksonville from Kentucky in 1833 and was a lawyer and banker in Jacksonville for a great many years. Mr. Brown contributed liberally to the college and always took a great interest in educational affairs.

Greetings will also be heard from Mrs. Alice McElroy Griffith of Springfield, the only living graduate of the class of 1852.

At 12:30 a luncheon will be served at the college for the trustees and visiting friends and donors to the institution. This luncheon promises to be one of the most pleasant features of the day's exercises.

In the evening a concert will be given at 8 o'clock by members of the faculty of the musical department.

**EVERY DAY BRINGS NEW GOODS IN ALL DEPARTMENTS AT HERMAN'S POPULAR STORE.**

**FAMILY IS GRATEFUL.**  
To the members of the Ministerial Association:

Accept our hearty thanks for your kind remembrance in time of our deepest sorrow.

Truly our lot has been cast in a pleasant place, in the midst of our friends.

Gratefully yours,  
Walter E. Spooner and family.

### BAPTIST CHURCH PLANS MISSION STUDY CAMPAIGN

Course Will Last For Six Weeks and Over One Hundred Have Already Enrolled—Officers Chosen.

Plans for the Mission Study campaign of the First Baptist church are well under way. The course will last for six weeks only. Classes will meet at the church for the six Wednesday evenings from Oct. 27 to Dec. 1 from 7:15 o'clock to 8 o'clock. Students will be arranged in groups with a leader and secretary appointed for each group. Two texts books will be used. Senior students will read "The King's Highway," the latest mission study text book of Mrs. Helen Barrett Montgomery, written after her recent trip around the world. Junior students will read "Around the World with Jack and Janet," by Miss Norma R. Waterbury, a companion book to that used by the senior students. These books are written in a most interesting manner and deal with the following countries: Northern Africa, India, China, Burma, Japan, Korea and the Philippines. Large maps will be used to illustrate the course.

The officers of the campaign are: Rev. Percy W. Stephens, president; Prof. Rollin H. Tanner, dean; Miss Bess Newman, secretary; Miss Elizabeth Long, treasurer. The faculty of the campaign will consist of some of the most able workers of the church and Sunday school. Already about one hundred names have been enrolled as students.

Graduation exercises will be held on Wednesday evening, Dec. 8, when diplomas will be presented to the graduating students. An address will be delivered at this time by Rev. S. N. Bower, D. D., of Springfield, Ill. Although the campaign has been organized for the members of the church and congregation, any who desire to enroll will be welcomed.

### PATIENT DIES AT JACKSONVILLE STATE HOSPITAL

Steve Collins, a patient at Jacksonville State hospital died suddenly at 5 o'clock Wednesday morning. Collins has been subject to heart trouble for some time and was quite sick all night. As there was no physician in attendance at the time it was deemed best to hold an inquest. The coroner's office was notified and Deputy Coroner J. G. Reynolds empanelled a jury composed of the following: W. B. Rogers, foreman, J. G. Strawn, Edward Killiam, F. J. McGhee, M. H. Carroll, and L. W. Reynolds, clerk. After hearing the evidence the jury returned a verdict to the effect that the deceased died of chronic myocarditis with arterio sclerosis as a secondary cause.

### THE WINDOW DISPLAYS.

The committee which will award the prizes for the best window displays of several classes will begin their inspection work today and the awards will be announced later. As already mentioned, there are three classes and two prizes in each class, the first prize a half page ad in both of the local papers, and the second a quarter page ad in both of the local papers. In order to have a window considered in this contest it will be necessary to have a card displayed showing that the window has been decorated on account of the international display week. In no other way will the committee be able to know that the window has been decorated especially for this week. Window cards can be secured from either of the local newspaper offices.
